ABOUT THE DISCIPLINE

Music is an expressive art form that is multimodal and cross-culturally literate. A thriving culture is enhanced by music, which is essential to human life. It has the capacity to enlighten, enlarge, expand, and improve the human experience. Music can be used to enhance one's cognitive, physical, emotive, intuitive, and spiritual modalities of knowing. Ideas, emotions, and meaning are embodied and expressed via music. It can converse both within and between historical, cultural, socioeconomic, and even prehistoric contexts.

One of the two primary subgenres of Indian classical music is Carnatic music. It is an intricate and refined tradition with a lengthy history that dates back to antiquity. Its foundation is a system of Ragas and Talas that emphasises embellishment and improvisation. Carnatic music is distinguished by a complex melodic structure with faint oscillations and shakes, and is renowned for its technical mastery and artistic refinement. Carnatic music also places a strong emphasis on improvisation (Manodharmam) and originality, giving musicians a creative orifice.

University of Kerala's Bachelor of Arts (BA Hon.) in Music degree offers a deep and extensive grounding in the theoretical and practical components of Indian classical music, mainly Carnatic music. Various courses are also offered from the allied disciplines for nurturing interdisciplinary perspectives. Students who are enthusiastic about music and want to advance their musical knowledge, abilities, and creativity should enrol in this programme. This covers several themes, including the theory and practice of Carnatic music, and will equip the participants for success in a range of musical professions. Graduates of the programme will possess a profound comprehension of one of the most exquisite and ancient musical traditions worldwide. Additionally, they will acquire great musical abilities that will enable them to pursue careers in performance, music education, music production, and digital media and so on. Students who learn music can also improve their self-confidence, discipline, and inventiveness.

GRADUATE ATTRIBUTES

Graduate attributes bridge the gap between academia and the real world, fostering lifelong learning and meaningful contributions. They denote the skills, competencies, and high-level qualities that a student should acquire during their university education. Apart from gathering content knowledge, these attributes go beyond the assimilation of information to its application in various contexts throughout a graduate's life. It aims in inculcating the art of critical thinking, problem solving, professionalism, leadership readiness, teamwork, communication skills and intellectual breadth of knowledge. The University of Kerala envisages to pave the path in guiding the student's journey to shape these attributes uniquely, making them integral to personal growth and success in various spheres of life. The University strives to ensure that these graduate attributes are not just checkboxes, but they play a pivotal role in shaping the students into capable, compassionate, and responsible individuals with a high degree of social responsibility.
